To get the most outta your ice maker, remember to follow our instructions carefully! Before using it, make sure you've gone through this manual thoroughly. This way, everything will run smoothly and efficiently. If you want a quick refresher on how to use it, just check out the table of contents: I. Product Features II. Components' Names III. Safety precautions IV. Place environment V. Preparation before Use How to use YT-E-005C Ice Maker VI. Start to Use VII. Operation Panel IX. Self-Clean Mode Operating Instructions X. Cleaning and Storage We put all the important stuff in one place, so you don't have to search high and low for answers. You can even download this manual for offline use - just click the button below! Our ice maker is super fast, producing 9 ice cubes in under 10 minutes! It's also got a big water tank (2.2L) and a large ice tray (0.8kg). Plus, it's got a strong but quiet compressor, so you won't even notice it's working. You can make three different sizes of ice cubes: S / M / L - perfect for any occasion! And with our smart design, you'll always know what mode you're in, thanks to the big and simple icons. Plus, there's an automatic standby mode when the ice tray is full, and a warning for low water levels. We've also got a 2-year guarantee and 30-day return policy - just in case anything goes wrong. And don't worry if you have any questions, our technical support team will be happy to help. One more thing: our ice maker doesn't freeze food like a fridge or freezer would. But it does come with a self-cleaning function that makes cleaning up after use a breeze! Just add some water and vinegar, press a few buttons, and you're good to go! Looking for a manual? Manua.ls has got you covered - over 1 million PDF manuals from more than 10,000 brands. Just type in the brand name and product type in the search bar, and voila!
